

Shuzi Testimonials

"What Professional Athletes and Doctors are saying about Shuzi"

Carrie Barry

Captain of Team USA Boxing

I have been a member and Captain of Team USA , Boxing since 2004 (could also work in that I am a 4x US Champion). I am always looking for training and recovery tools to help keep my edge and help me prepare for World Championships this fall in China . I can't say enough about my new Titanium Shuzi bracelet (I love how light weight it is and sleek design! I get compliments all the time).

Boxing demands balance, agility and strength for a successful training program and for victory in the ring. I have been using your Shuzi bracelet for over a month now, and I can honestly say that it has helped tremendously with all aspects of my training program. I have even found it beneficial outside the ring helping me get through long days of training and working and still have the energy and focus in the evening as I work toward a graduate degree.

I recommend it for any athlete looking to improve their performance.

Dear Jerry

Since I began wearing my Shuzi bracelet my overall general health has improved. While wearing the bracelet I recently broke the track record at Springfield Illinois (1 mile dirt track) and captured my first win of the season in dominating fashion. This is the first pole I have earned in over 2 years and my first win in exactly a year. Reaction time, reflexes, and a determination to succeed is what it takes to achieve these goals. There is no doubt that the Shuzi bracelet had some part in my success. Frank Kimmel, 9-Time ARCA Re/Max Series Champion

Thanks,

Frank

Hi Jerry,

I want to thank you for getting me involved with Project Endurance. As you know being a racecar driver requires a lot of mental / physical endurance and requires you to be under lot of stress during a race.

When I was first introduced to the Shuzi product, I was very skeptical but during the 2008 ARCA racing season, I was struggling to finish in the top five during the feature events. For some reason I could not find the right combination to win on the speedway. After being introduced to Shuzi, I became very consistent with three consecutive 2nd place finishes that put us 2nd in the championship point standings for the 2008 season

Shuzi has really made the difference for me and in my driving performance on the ARCA speedway. I am recommending Shuzi to everybody whether you are an athlete or not for the Shuzi has made a difference for me on the speedway and off.

There is no question that Shuzi had strengthened my resilience and resistance to the effects of stress, increased my energy and enhanced my mental performance, especially under pressure.

There are now 2 winners in the ARCA Super Late Model series, 9 time track champion Dennis Strickland and Shuzi.

Sincerely,

Dennis Strickland

Jerry,

Thank you for introducing me to Shuzi.

Because I am the sales manager at Maddox RV, I am under a lot of stress daily because of not only the economy but also because sales are down like everybody else in the RV business.

When you explained to me what Shuzi would do, I did not believe it until you had me do the strength tests. Even after doing the strength tests, I still had reservations as to the performance of the Shuzi bracelet.

Well after three days, I had some major changes in my life. Let me tell you some of the benefits I found by wearing my Shuzi:

- My back pain has subsided,
- It increase my energy and vitality
- It improved my mental awareness
- It improved my arthritis, I have less pain in those areas
- it improved my sleep
- I have better balance and it balanced my emotions which improve my sales

I am so excited about what Shuzi has done for me, I showed the product to my renter, my next

door neighbor who is a roofer and my other neighbor, who is in his late 60s. After having them performed the same strength tests that I did, all of them purchased a Shuzi bracelet from you. In fact, I am looking to give a Shuzi bracelet to every customer who purchases a new RV for me at Maddox RV to give them better health.

Thanks again for all your help in the introduction to the Shuzi products.

Also, if anybody wants to hear my testimony in person, please have them call me at 734-287-6067, and I will tell them what Shuzi has done for me.

Best regards,

Jim Fink

Dear iHealth Products Staff and consumers:

I was in the kitchen when the lightning bolt hit a tree 75 feet from our home

Instantly I felt a surge, heard the crash and thought our home had been hit. It had, but not directly. One of the lightning "Sprays" hit the east side, causing the instant crash of our computer (with surge protector). It caused the battery operated clock on the east wall to rotate 2 hours and failed to maintain the correct time, books, wall art fell to the ground as well.

The top of the tree lost about 20 feet as it exploded with power, wood hit our home and the tree was on fire from the root. All this to say, it was powerful and frightening.

I instantly felt out of sorts and weak because, I was on the east side of our home as well. I knew I needed to see Suzanne because I literally felt "zapped". I tested weak, in fact a 0. She put on your bracelet and instantly felt strength begin to return. We verified the testing by taking off the bracelet and instantly felt a "surge" type sensation. Almost like a roller coaster downfall and a headache. We place it back on and I felt instantly strengthened again. I was tested every 5 minutes and the vitality constantly went up just sitting in the office!

I have worn my bracelet daily and have noticed the difference and sense the healing in my body getting stronger and stronger!

I cannot thank you enough for your products, for the positive results and will testify that it has truly worked!

"I haven't taken the Shuzi off since I received it. I've been in the "body business" since 1965. As a speaker, writer and guided imagery expert, I travel a lot, present in huge convention centers, use my cell phone all the time and am at my computer more hours than I care to think about. Since I started wearing the Shuzi (rhymes with Suzy) I have more energy, greater clarity and less jet lag. It's going to be my standard Holiday gift this year! Trust me, it's good for your body."
Suzy Prudden Positive Changes Hypnosis, Beverly Hills, CA

Initial testing of the Shuzi bracelet appears to show positive results in negating the harmful effects of electro-magnetic fields.

Dr. Roger Yates, Old Saybrooke, CT.

My husband has been suffering from a rash on his arms, legs, and chest for over 10 months and has seen 2 doctors, been on 3 different medications and 2 creams—none helping at all. A friend told us that it could be from EMF since he is always on his cell phone and works constantly between his two laptops and that I should try the Shuzi bracelet. Although skeptical he tried it and 2 days later the rash was much improved and 4 days later it was totally gone! Thank you so much,

Sarah Bellen, Chelmsford MA.

"Since I have been wearing Shuzi my drives are longer, my scores have been lower and I am calmer in pressure situations. It truly works for me!

Jerry James
PGA Professional
2005/2006 Long Drive Champion

"Muscle response testing indicates definite improvement of nerve and immune Response to the Shuzi Bracelet that cancels adverse neurological reactions, including but not limited to, allergies."

The statement from Dr. Frank R. Smith, D.C. , Wichita Kansas

"Earlier today I received a Shuzi bracelet to try out. I support the philosophy behind the Shuzi and would recommend it to anyone who is looking to improve their overall quality of life."

Dr. Jessica Smiley-Hedrick, D.C. Madisonville, TN

In my practice I have muscle tested a client with and without the Shuzi bracelet. The subject tested positively stronger with the Shuzi bracelet on the wrist.

Frank Visconti, MH., NC.

I am commercial diver and an avid martial artist, since wearing my shuzi bracelet I have noticed an increase in my endurance and mental focus both at work and in my training.

Juan Barba San Diego, CA
